3785 - Engineering (Honours) Civil Engineering / Computer Science - 240 UoC

In this dual degree program, students take all 168 UoC of core courses from the Bachelor of Engineering (Honours) 3707 and all 96 UoC of core courses from the Bachelor of Science (Computer Science) 3778. Due to the overlap of 24 UoC of Science core courses, the total UoC required for completion is 240 UOC, rather than 264 UOC (see the UNSW Handboook for more details).

Some courses are double counted. Additionally, the overlap requires students to replace the usual course in one core or major with a more advanced course required in the other program.
Specifically:

1. Students MUST take COMP1511 as their first year Engineering computing course, COMP1511 is then double counted towards both degrees
2. Students are required to complete MATH1131 or MATH1141, and MATH1231 or MATH1241. The two Maths course are double counted towards both degrees.
3. MATH1081 is a core requirement Bachelor of Computer Science but is replaced by the 2nd Year Maths course taken in the BE(Hons) Major

Thesis Requirements

1. Students who take CVEN4951 or CVEN4961 must take CVEN4701 as one of their discipline electives.
2. Students who take Higher Honours and complete 24 UoC of Thesis subjects, will take 12 UoC of discipline electives instead of 24 UoC.

Course	UoC	Complete?	Notes
Core Courses - 24 UoC			
COMP1511	6	☐	
MATH1131 or MATH1141	6	☐	
MATH1231 or MATH1241	6	☐	
MATH2018 or MATH2019	6	☐
