Assessment Details

Assessment 1 (2,000 word eq, weighting 40%)

Plan and design one 60-minute lesson for a mixed-ability Stage 4 class.

The lesson plan must follow a standard SED format and be presented using the template provided.

Plan your lesson for a class in a comprehensive high school which would typically include

- EAL/D students
- Indigenous students, and
- students with various religious and cultural backgrounds.

Some students may have low levels of literacy. Differentiation to cater for some students is therefore required. Appropriate differentiation strategies are scaffolding, group work and/or an alternative task or mode of presentation.

1. Write a rationale for your lesson plan. Your rationale should address the questions:
 - What do I want the students to learn?
 - Why is it important?
 - What strategies will I use?
 - What assessment for learning strategies will I use to monitor progress?
2. Prepare the lesson plan to demonstrate how you will use appropriate structure, activities, strategies and formative assessment to develop understanding of the material.

Make sure you:

choose an appropriate topic for the year group

Assessment 2 (3,500 words, weighting 60%)

Prepare an outline for a unit of work for a Stage 5 class. The unit of work should cover the first five lessons; however, you are not preparing full lesson plans.

You must write a rationale for the unit (600-800 words) in which you

provide a brief outline of the school and class context
state precisely what you want the students to learn and why it is important
justify your choice of topic/text to suit the needs and abilities of this class
justify your teaching strategies by referring to readings, research and material presented in lectures and the Quality Teaching framework
demonstrate how differentiation will support a diverse range of learners
state the prior knowledge students have to begin this unit and discuss how you would assess and build on this prior knowledge.

Include in your unit outline, for each lesson

one full activity for formative assessment (not an essay)

one ICT-based activity (not watching a video or PowerPoint presentation)

one

Microteaching is the planning, presentation and evaluation of a lesson over a shortened period of time (a 10-minute mini-lesson). It is a critical aspect of method as it provides students with the opportunity to demonstrate key competencies that must be achieved before student teachers are permitted to undertake Professional Experience 1, at the same time observing other student teachers and engaging in peer review. It is recommended that students read widely on effective classroom strategies and practise aspects of their mini-lesson with a small group of peers prior to assessment.

The assessment process will consist of the following two components:

- A detailed lesson plan, including a statement of expected learning outcomes
- A 10-minute mini-lesson

All students must submit to the method lecturer their proposed lesson plan at least one week prior to the presentation. This will be returned with comments on the suitability of the proposal.

This will be assessed according to the attached criteria and will be graded as follows:
Any student whose first microteaching episode is judged as unsatisfactory will be given a further (one only) opportunity to gain a satisfactory grade.
