- A specialisation in [Integrated Design](#) enables students to pursue a teaching area in either Visual Arts Only or both Visual Arts and Graphics & Multimedia Technology.

Students complete the Design component (96uoc) and the Education component (96uoc).

The courses that the student completes as part of their studio sequences, in the Design component, will form the 'subject content' for their chosen teaching area(s). For this reason, students must choose specific combinations of studio sequences to meet NESA accreditation requirements.

Please refer to the table on page 3 for information on the appropriate studio sequences for your chosen teaching area(s).

It's very important to refer to the [2023 Online Handbook](#) for your program requirements, plus any additional notes on accreditation. The sample program on the following page shows you an example of how you might plan your enrolment. This should be adapted based on the availability and prerequisites of courses for your Design component.

Professional Placement:

Students are only permitted to enrol in the main offering terms listed in this sample program plan.

- EDST2002 Professional Engagement
- EDST6760 Professional Experience 1
- EDST6765 Professional Experience 2/ Internship*

All other terms are not open to students and are there for administrative purposes and extenuating circumstances.

*Note: You cannot be enrolled concurrently in EDST6765 and EDST6760.
