

1. What is the research study about?

You are invited to take part in this research study. The research study aims to investigate factors affecting the street crossing behaviours of public transport users. Since you use public transportation, your answer will assist in determining which policies are most effective to influence a safe crossing behaviour among pedestrians around public transportation stations.

2. Who is conducting this research?

The study is being carried out by the following researchers: Dr Elnaz Irannezhad, Dr Milad Haghani, Associate Professor Taha Hossein Rashidi, Maziar Yazdani, Civil and Environmental Engineering - UNSW Sydney.

Research Funder: This research is being funded by iMOVE Australia.

3. Inclusion/Exclusion Criteria

Before you decide to participate in this research study, we need to ensure that it is ok for you to take part. The research study is looking recruit people who meet the following criteria:

Study participants are pedestrians who switch travel modes in two selected areas and choose desire lines for going from one location to another.

Participants must be 18 years of age or older.

4. Do I have to take part in this research study?

Participation in any research study is voluntary. If you do not want to take part, you do not have to.

If you decide you want to take part in the research study, you will be asked to:

Read the information carefully (ask questions if necessary)

Complete the online questionnaire.

to complete. Upon completion of this survey on-site, the participants will be rewarded with a \$10 coffee voucher. Respondents who complete the survey off-site will be entered into random draws in which 20% of respondents will be rewarded with \$10 coffee voucher.

If you experience discomfort or feelings of distress while participating in the research and you require support, you can stop participating at any time. You can also tell a member of the research team and they will provide you with assistance or alternatively a list of support services and their contact details are provided below.

ONLINE PARTICIPANT INFORMATION STATEMENT

Desire Lines User Behaviour Research: Initial Scoping and Feasibility
Dr Elnaz Irannezhad

Submission of the online questionnaire is an indication of your consent. By clicking the I agree to participate button you are providing your permission for the research team to collect and use information about you for the research study.

The research team will store the data collected from you for this research project for:
A minimum of 5 years after the publication of the research results.

The information about you will be stored in an/a
Non-identifiable format where your identify will be unknown.

You will be asked to provide your consent for the research team the share or use the information collected from you in future research that:

Will be specific to the aims of this research.

Your information will only be shared in a format that will not identify you.

8. How and when will I find out what the results of the research study are?

The research team intend to publish and/ report the results of the research. Public access to the results and conclusions of this research will be lble f-17(rn)-272()9(se)-272wheesite tVictoriroD3(he)5partim3(he)5pt tT6
