6. Assessment

Assessment overview

| Assessment | Group Project? | If Group, # Students per group | Length | Weight | Learning outcomes assessed | Assessment criteria | Due date and submission requirements | Deadline for absolute fail | Marks returned |
|-----------------|-------------------|--------------------------------------|--|---------------------|----------------------------------|--|--|----------------------------|-------------------|
| Online Quiz x 3 | No | N/A | Multiple choice and short answer questions | 15% (5% each) | 1, 2 and 3 | Lecture and demonstration contents | Week 3, 6, 9 | Immediately | |

a. Weekly online tests or laboratory work worth a small proportion of the subject mark, or

Special consideration and supplementary assessment

If you have experienced an illness or misadventure beyond your control that has interfered with your assessment performance, you are eligible to apply for Special Consideration. For details of applying for Special Consideration and conditions for the award of supplementary assessment, please see the information on UNSW's <u>Special Consideration page</u>.

The prescribed textbook for this course is:

Douglas C. Montgomery, Design and analysis of experiments, 8th ed, Hoboken, N.J.: John Wiley & Sons, Inc., 1118146921

You can find a limited number of the prescribed textbook from the UNSW library.

UNSW Library website: <u>https://www.library.unsw.edu.au/</u> Moodle: <u>https://moodle.telt.unsw.edu.au/login/index.php</u>

8. Course evaluation and development

Feedback on the course is gathered periodically using various means, including the UNSW myExperience process, informal discussion in the final class for the course, and the School's Student/Staff meetings. Your feedback is taken seriously, and continual improvements are made to the course based, in part, on such feedback.

In this course, recent improvements resulting from student feedback include more demonstrator support to the student major group project.

maincine la han what so have a hand a second and the second and th

UNSW has an ongoing commitment to fostering a culture of learning informed by academic integrity. All UNSW students have a responsibility to adhere to this principle of academic integrity. Plagiarism undermines academic integrity and is not tolerated at UNSW. *Plagiarism at UNSW is defined as using the words or ideas of others and passing them off as your own.*

Plagiarism is a type of intellectual theft. It can take many forms, from deliberate cheating to accidentally copying from a source without acknowledgement. UNSW has produced a website with a wealth of resources to support students to understand and avoid plagiarism, visit: <u>student.unsw.edu.au/plagiarism</u>. The Learning Centre assists students with understanding academic integrity and how not to plagiarise. They also hold workshops and can help students one-on-one.

You are also reminded that careful time management is an important part of study and one of the identified causes of plagiarism is poor time management. Students should allow

sufficient time for research, drafting and the proper referencing of sources in preparing all assessment tasks.

If plagiarism is found in your work when you are in first year, your lecturer will offer you assistance to improve your academic skills. They may ask you to look at some online resources, attend the Learning Centre, or sometimes resubmit your work with the problem fixed. However more serious instances in first year, such as stealing another student's work or paying someone to do your work, may be investigated under the Student Misconduct Procedures.

Repeated plagiarism (even in first year), plagiarism after first year, or serious instances, may also be investigated under the Student Misconduct Procedures. The penalties under the procedures can include a reduction in marks, failing a course or for the most serious matters (like plagiarism in an honours thesis) even suspension from the university. The Student Misconduct Procedures are available here:

www.gs.unsw.edu.au/policy/documents/studentmisconductprocedures.pdf

10. Advisit matters

All students are expected to read and be familiar with School guidelines and polices, available on the intranet. In particular, students should be familiar with the following:

AttendanceUNSW Email AddressComputing FacilitiesSpecial ConsiderationExamsApproved CalculatorsAcademic Honesty and PlagiarismStudent Equity and Disabilities UnitHealth and SafetyLab AccessMakerspaceUNSW TimetableUNSW HandbookUNSW Mechanical and Manufacturing Engineering
