

Students are expected to purchase the following equipment at the stages indicated. They are expected to use this equipment at the appropriate clinics throughout their time at

Occluder/Pinhole PD/Pupil gauge	Fixation Target Brock String	90D/Superfield Fundus Lens	Tonometer Probe

* It is expected that students have an Occluder/Pinhole, PD/Pupil gauge, and Pentorch from stage 2 these will be used in OPTM6400 (Stage 4, Term 1). They can also be purchased online.

** The items in this column will be needed by Week 1 of Term 2, for Clinic. They may need to be imported, so the purchases must be made well in advance.

All of these items in this column must be purchased through the manufacturers/importers because they require TGA approval. A Stage 3 students should attend the instruments, at the questions, and soon after that, decide on preferred purchases. The Manufacturers will know /announce the deadlines for purchase or making a deposit.
