1. Objectives

This course complements other courses in human resources and management by emphasising findings from psychological research and evidence based practice. Principles learned in this course will help those students entering the workforce in the next year or two.

A number of different strategies are used to convey psychological theories and illustrate the practical application of these theories. Strategies include formal lectures and the use of case studies, practical examples and research findings to illustrate points of interest. Timely completion of online tutorials is essential in accordance with UNSW Assessment Implementation Procedure.

The lecture content of this course is presented entirely online via the [Moodle](#) eLearning website. The f

The Moodle forums should be the first line of contact with the Course Co-ordinator (meeting requests, personal matters etc. can be sent by email in the first instance). Due to the online nature of the course, under no circumstances are specific exam/quiz questions/answers to be discussed online or via email, such matters can only be discussed during in person appointments with the Course Coordinator.

The final exam for this course will take place on campus during the UNSW examinations period. Students should not arrange travel during the UNSW exam period until the date of the final exam has been released. Students who arrange travel prior to the release of the final exam date will not be granted consideration in the event they are scheduled to be out of country when the final exam is to occur. This is especially important for study abroad students – do not arrange travel home until the final exam date has been released.

Students registered with Disability Support Services must contact the course co-ordinator immediately if they intend to request any special arrangements for later in the course, or if any special arrangements need to be made regarding access to the course material. Letters of support must be emailed to the course coordinator as soon as they are made available.

1: You are required to complete an individual assignment that consists of 5 parts. In Part 1 (due Friday, Week 2 by 10pm) you are required to analyse a job advertisement. In Part 2 (due Friday, Week 3 by 10pm) you are required to identify your personal strengths. In Part 3 (due Friday, Week 4 by 10pm) you are required to prepare a resume. Second, the final portfolio submission (Part 5) is worth 20%. Although parts 1-4 will not be assessed or graded individually, careful and thorough completion of these will help you prepare a superior final portfolio, which will be assessed. The final portfolio will be marked according to the assessment criteria which is available in the Portfolio section.
